

College President Appeals for Area Unity

Claims Location Will Not Affect Economic Benefit

Dr. Roy G. McCall, president of the future College of the Desert, today issued an appeal for the unified support of all desert area communities in the selection of a junior college site.

In a statement to The Desert Sun, Dr. McCall urged Coachella Valley residents to base their judgment of a college site on the interest of "the public good" rather than individual "economic gain."

DR. MCCALL also asserted that the location of the college would make no economic difference to the merchants of any area and he cautioned against inter-community bickering which may form "a blot on the good name of the college."

The college president's statements followed in the wake of heavy protests registered by west desert communities on the Indian Wells Cove site favored by trustees of the Coachella Valley Junior College District as the location for the college.

CHAMBERS OF commerce and, in some cases, civic officials of Palm Springs, Rancho Mirage, Cathedral City and Thousand Palms have coincidentally allied themselves in a campaign to have the prospective college located on the board's second-rated site, on Rio Del Sol Road near Avenue 40.

DR. MCCALL'S comments were in the form of an appeal for unified support of the board's selection and an explanation of the

board's "serious obligation" to secure a site able to answer the long-range needs of the district.

He urged the residents of Coachella Valley to "take a careful and objective look at their opportunities and obligations in establishing a new junior college" and stated, in part:

"The kind of setting in which the college is built and the character of its immediate environment are even more important to its long-range well-being than a few miles in one direction or another."

"OVER A PERIOD of a half-century, the difference in cost between a good site and an excellent one is small indeed compared to what that difference will mean to all the people who use and take pride in their college."

Dr. McCall pointed out that many citizens have offered assistance solely in the interest of the public good, but that "others have quite naturally been concerned with the enhancement of value of their own property and have wanted the college near their holdings or community."

He suggested that, for the sake of the college, "it would be well if all could take the more generous view."

MCCALL POINTED out that a concerted effort to build a "truly community college" will do the total valley "honor and good."

But, he added, bickering for a location to the material advantage of any person or community "will write a history of which we will be ashamed and which will be a blot on the good name of the college."

Guatemala Terrorists Bomb U.S. Embassy, Cleric's Home

GUATEMALA CITY — (UPI)—Terrorists hurled bombs at the U. S. Embassy, an archbishop's residence, and an electrical plant Tuesday night causing some damage but no injuries.

There was no immediate explanation for the attacks. Guatemala City has been remarkably free of violence in recent months.

U. S. MARINES guarding the embassy said they did not see or hear anything unusual before the explosion. The blast broke several window panes in the embassy building.

U.S. Ambassador Lester Mallory hurried from his home on the outskirts of the city and Guatemalan President Miguel Ydigoras Fuentes arrived to make a personal investigation.

Fuentes picked up several pieces of the bomb and examined them.

BOTH HE AND Mallory said they had no idea who threw the bombs or why. Marine guards said the bomb appeared to have been

a tube of gunpowder triggered by a hand grenade fuse.

A second bomb shattered the front doorway of the residence of Msgr. Mariano Rosell Arellano, Roman Catholic archbishop of Guatemala.

The archbishop said he was amazed at the attack and had no idea what caused it or who was responsible.

Authorities said the third bomb exploded at the Mariscal electrical works but did not cause enough damage to interrupt electrical service.

L.A. Funeral Rite Slated Thursday For Mrs. Jacobs

Funeral services for Mrs. Betty Jacobs, 538 Highland Drive, longtime Village resident, will be conducted at 2 p.m., Thursday, at Gorman's Mortuary in Los Angeles.

Mrs. Jacobs was active in the City of Hope all her adult life, and was vice president of the Palm Springs Chapter at the time of her death. She also was active in the Jewish Community Center here.

Survivors include two sisters, Cynthia Blank and Maye Swartz, both of San Jose, and a niece, Mrs. Janice Kreisman, of Fullerton.

The family has requested that in lieu of flowers, memorial contributions be made to the City of Hope.

Annual Inspection

Red Scale Check Starts Monday

Teams of inspectors for Riverside County Citrus Pest Control District No. 2 begin their annual inspection for red scale here Monday, the manager of the teams reported today.

The teams will begin their systematic grove-by-grove, house-by-house tour of the Village seeking the almost-microscopic pests that have plagued virtually every citrus grove in the County of Riverside.

DISTRICT MANAGER Homer L. Heard, however, gave Coachella Valley residents cause for relief when he said that preliminary examinations — conducted in Indian Wells — had indicated that the Valley is, thus far, "virtually free of red scale."

Heard said that the district's annual inspection tour — which runs the length of Coachella Valley to the Imperial County line—

examines approximately 11,000 acres of citrus.

"ABOUT 200 ACRES of that total is spread out within the City of Palm Springs," Heard said.

The district usually attacks mild infestations with a spray but handles heavy infestations by removal and burning of the plants.

The inspectors under Heard's supervision carry identification cards and will present each Village resident with a brief, printed explanation of the purpose of the program beginning Monday.

NO CHARGE is made for inspection or treatment, Heard said, pointing out that the program is charted by the Riverside County Agricultural Commissioner's office.

The program, he added, is not to be confused with other horticultural programs of the district and is only for the eradication of red scale.

Khrushchev, Ike Swap Angry Words On Eve of Nixon's 'Friendship' Visit

U.S. Rejects New Russian Bid at Geneva

No Change in Red Position Indicated By Gromyko Talk

GENEVA — (UPI)—Secretary of State Christian A. Herter charged today that Russia is trying to make the West its "unwitting accomplice" in a plot to hold all of West Berlin for ransom.

Herter sharply rejected a new "concession" offered by Soviet Foreign Minister Andrei Gromyko at today's session of the Big Four Foreign Ministers Conference.

GROMYKO PLEDGED that Russia would take no "one-sided action" during a possible Berlin truce or the negotiations following it.

The U. S. leader pointed out that the Russian offer still had a big string tied to it — insistence that a Berlin truce must have a time limit.

Gromyko's speech indicated no great change in the Soviet position on Berlin. In particular, it gave no indication that Russia is willing to withdraw its "impossible" demand that West Germany and the Communist East should have equal representation in negotiations for German reunification.

SO FAR AS COULD be learned, the Soviet foreign minister did not refer directly to the "one-sided action" most objected to by the West — a separate peace treaty between Russia and Communist East Germany.

Gromyko's statement was a reply to western demands for a clear statement of Russia's conditions for a Berlin truce.

The United States and its Allies twice have warned Gromyko they will break off the talks unless he retreats from his call for an East and West German commission to study the problem of German reunification.

Autopsy Slated In Electrocution Of Cashier Here

An autopsy was scheduled by the coroner's office today to determine the cause of death of LaVerne Garrett Fletcher, 25-year-old drug store cashier who was apparently electrocuted yesterday.

The autopsy will be followed by a coroner's hearing, set for 2 p.m., Thursday, at Wiefels and Son Mortuary here.

Police said the woman was electrocuted when she reached into a deep-freeze unit for some ice cream yesterday morning. Investigators said the electrically-powered freezer had a short circuit.

Officers noted today that the electrical current was only 110 volts, instead of the 220 volts reported yesterday, but that the charge was amplified by water in or near the freezer box.

Baritone Sings 'Silent' Aria At Hollywood Bowl

HOLLYWOOD (UPI)—Baritone Robert Merrill stepped on stage at the Hollywood Bowl Tuesday night to burst into the rousing Toreador song from Carmen, but his microphone went dead.

The mike, concealed at his throat, went dead because of interference from a local police radio call, according to a bowl official.

The trouble lasted for only about a minute and Merrill himself was unaware of it until told by his wife, Marion, who dashed backstage from her seat in the audience.

PALM SPRINGS CIVIC LEADERS were on hand to welcome Dr. and Mrs. Roy G. McCall when the first president of the future College of the Desert was presented at a reception staged in his honor at Shadow Mountain Club in Palm Desert this week. Mayor Frank Bogert, second from left, and City Councilman George Beebe Jr., left, are introduced to Dr. and Mrs. McCall by Don Mitchell, right,

president of the Coachella Valley Junior College District Board of Trustees, while Mr. and Mrs. Hal Kapp, center background, look on. Kapp is president of the Palm Desert Chamber of Commerce. He was one of some two-score civic and business leaders from various Coachella Valley communities who attended the reception in the Shadow Mountain Club patio. (Desert Sun Photo).

Motor Vehicle Office Seen Here in 1960

Woodrow Wilson, manager of the area division of Department of Motor Vehicles, reported today that he has made a request for funds to place a department office in Palm Springs.

The request, which must go to the California Legislature for approval, will be subject to the start of the local services in July 1960.

Some offers of facilities for the office have been made to the department, but nothing can be done about them until after the legislature approves the use of the funds.

Wilson said the Department of Motor Vehicles is backing the request for the Palm Springs office.

Fruits, Vegetables Up

Cost of Living Hits All-Time High

WASHINGTON (UPI)—Living costs jumped four-tenths of 1 percent in June to hit a new all-time peak, the government reported today.

Prices of fresh fruits and vegetables led the advance in the Labor Department's consumer price index. It was the biggest monthly increase in 15 months.

THE INDEX MOVED to 124.5 percent of average 1947-49 prices. This was six tenths of 1 percent higher than a year ago.

Ewan Clague, commissioner of labor statistics, called it a "seasonal increase."

"This is not a sign that the consumer price index is about to take off," he said.

CLAGUE ESTIMATED that about 600,000 workers will receive wage increases because of the rise in costs. About 200,000 trucking employees and 100,000 aircraft workers whose pay is geared to

REAL ESTATE BOARD TAKES OVER MULTIPLE LISTING

The Village's Multiple Listing Service has a "new look," courtesy of the Palm Springs Real Estate Board, it was announced this week.

Previously operated by an independent contractor, the service has now been integrated with the rest of the lengthy list of services rendered by the PSREB, it was announced by Real Estate Board President Don Cameron.

THE LOCAL BOARD has assigned its executive secretary, John Bernet, to handle the mechanics of the service, under the direction of a multiple listing committee.

"Multiple Listing Service," Bernet said, "is the symbol and the tool of cooperative listing, showing and selling of real estate."

Multiple listing allows a seller to avail himself of the sales facilities of virtually all Palm Springs real estate offices and their staffs. Instead of a single Realtor showing a certain piece of property, all of the Village's real estate forces will be "in the field" with homes listed through MLS.

BERNET SAID that the integration of the MLS within the framework of the parent organization here will enable Village real estate personnel to quickly learn of new additions to the MLS inventory, price changes and sales.

"It is one of a number of services that the Palm Springs Real Estate Board will render for Realtors here this year," he said.

Among other services being readied by the PSREB, Bernet said, are:

—INTRODUCTION of a lending library of professional materials for Realtors. The library will contain works on real estate selling, property exchanges, urban land development, real estate advertising, appraisal practices and other related subjects.

—AN "educational" program aimed at keeping Village and desert area Realtors knowledgeable on new innovations and law changes in real estate.

—Establishment of a file of declarations of restrictions for every tract in the general area.

—UP-DATING of chronological files that will show location and ownership of all properties that have been served by the Multiple Listing Service.

Bernet said that the educational program is scheduled to begin in September — using facilities of the Palm Springs High School — and will be open to Realtors of the six other real estate boards in the desert region.

Included — in addition to Palm Springs — are Cathedral City, Coachella Valley, Desert Hot Springs, Palm Desert, Pioneer Desert and Twentynine Palms. The seven boards make up the state's 28th District.

Francis Crocker, district manager for the California Electric Power Company here, said that the storm was "all bark and no bite."

"There was a short — length outage in the line from Banning to Cabazon and Whitewater, occasioned by a lightning strike, but it was quickly repaired," he said.

California Water and Telephone Company service went uninterrupted by the storm although several bolts of lightning struck within feet of telephone installations. District Manager Doak Davis said that phone maintenance crews were being kept on standby basis and Crocker added that Cal Electric maintenance forces were being held in the same state of readiness.

ing, appraisal practices and other related subjects.

'Mystery Crevice'

Earth Splits Open Near San Diego

JACUMBA, Calif. — (UPI)—Strange things are happening in the earth at this mountain town in southeast San Diego County.

A crevice 150-feet long has appeared at one end of the airport. It was only 75 feet long Monday, but by Tuesday it had doubled its length and was as deep as five feet and a foot wide. When first noticed several days ago it was no more than a small crack.

LAVON PARKER, 35, operating a tractor about 800 yards from the airport crevice, reported his tractor suddenly sank nearly a foot into the earth Tuesday when the surface gave way, causing him to scamper to safety.

Hank Ketchum said two large

Red Press Attacked by Eisenhower

Soviet Newspapers Present 'Distorted' View of Captives

WASHINGTON (UPI)—President Eisenhower said today the Russian press is giving a distorted and untrue picture of "captive nations" in the Soviet sphere.

He fired back at Soviet Premier Nikita Khrushchev, who criticized the President's proclamation of "captive nations week" calling for prayer on behalf of captive peoples.

EISENHOWER SAID he saw no connection, however, between attacks in the Moscow newspapers in the past 24 hours and Vice President Richard M. Nixon's imminent "friendship" visit to Russia.

The President said he hoped Nixon will be able to convey the temper and the feeling of the American people to Khrushchev during his visit.

THE VICE PRESIDENT leaves for Moscow tonight after holding a final conference with the President on his plans for a "little summit" meeting with Khrushchev and a scheduled goodwill tour deep into Siberia.

Eisenhower said that since Khrushchev would be host to Nixon, he assumed the Soviet leader would set the tone of the talks. But he said that Nixon would be able to express the feeling of the American people better than anyone else.

NIXON IS NOT part of this country's diplomatic machinery and can do no negotiating, the President said, but he should be able to impart valuable information to Soviet leaders.

BEFORE MEETING with the President to discuss the substance of his talks with the Russians, Nixon declined to comment on Khrushchev's statement in Warsaw that he is puzzled about one thing concerning the vice president's visit:

"What is his aim?"

WEATHER

Desert area forecast: Variable cloudiness with considerable sunshine today and Thursday. A few widely-scattered afternoon and night — time thunder showers. Little change in temperature with the high today 109 to 115 and low tonight 72 to 82. Yesterday's high was 110, the low 81.

holes appeared in the irrigation ditches at his ranch about a half mile away. He had to build a levee around the holes so he could continue irrigation.

"FOR TWO OR three hours water just poured into the ground through the holes and they showed no sign of filling up," he said.

What's happening? Nobody knows yet, but amateur geologist Don Weaver said he thinks erosion within the 3,000-foot mountain might be the cause.

Weaver said the town lies on top of a lava bed which is supported by a layer of sand. Recent rains washed out some of the sandy layer and the lava bed in collapsing, caused the earth's surface to buckle.

Moser Undergoes Kidney Surgery

Special to The Desert Sun
VISALIA — Emergency surgery has been performed on Palm Springs gardener Albert Moser, who was seriously injured when a pack mule dragged him more than 100 yards through rugged High Sierra country a week ago.

A kidney was removed from the Village man shortly before dawn Saturday, authorities at Visalia Hospital said yesterday.

MOSER, 54, OF 410 North Calle Santa Rosa, Palm Springs, had been rushed to the hospital after an Air Search and Rescue helicopter removed him from the rugged "hiker's paradise" country in Sequoia National Park.

A Porterville physician who attended Moser at the scene of the nearly-tragic mishap initially diagnosed the man's injuries as a dislocated shoulder and a hemorrhaging kidney that "appears to be punctured." Hospital authorities told Moser's son, Charles — a Palm Springs fireman who rushed to the Visalia Hospital to be at his father's bedside — that the injuries were not serious and had contemplated releasing the gardener on Monday.

THE THREE - HOUR operation was "most delicate," the hospital told the family. Moser was fed intravenously for a lengthy period of time and underwent blood transfusions that totaled four pints.

The family was notified Monday that Moser is "resting" following the emergency surgery and will "probably be ready for release within two weeks."

THREE DISTINGUISHED CITIZENS—School Board President Bernard Polak, Police Chief Gus Kettmann and former Mayor Charles Farrell — sit down for dinner together in the Chi Chi's Blue Room, one of the favorite locales for leading Village citizens. The three said "this isn't an official meeting of anything—we're just having dinner together." (Desert Sun Photo.)

Nathan Kolkey Services Set In Los Angeles

Funeral services were to be conducted in Los Angeles today for Nathan Kolkey, former Palm Springs hotelman and developer, who died in Denver, Colo., Monday.

Kolkey, 74, was co-owner, with Arthur Greenfield, of the Avalon Hotel here and was Greenfield's partner in the development of many Las Palmas area homes. He was a Palm Springs resident for 15 years.

Kolkey moved to Denver about three months ago, following a trip to Israel.

He leaves two daughters, Mrs. Saul (Helen) Jawitz, of Palm Springs, and Mrs. Rose Appleman, of Beverly Hills.

Graveside services were scheduled for today at Hillside Memorial Cemetery in Los Angeles.

Mixologist

'SUMMIT MEETING' ASKED ON CANCER

WASHINGTON (UPI) — Sen. Hubert Humphrey (D-Minn.) today advocated a "summit meeting" on health to organize an East-West war against cancer.

Humphrey said, "I feel that Soviet scientists have much to contribute to the international conquest of cancer and that they earnestly desire to do so."

HIS STATEMENT was issued as the Senate subcommittee on reorganization and international organizations, headed by Humphrey, released a 40-page booklet

entitled "Cancer: A Worldwide Menace." The Minnesota senator did not spell out the details of the proposed meeting, but pointed out that two million deaths annually result from cancer and that this almost equals the population of West Berlin.

"IF THE MAJOR powers cannot agree politically on Berlin," he said, "let the leaders of the major powers at least agree on trying to save the lives each year of as many people as live in Berlin."

Humphrey's views on international cooperation in medical research were received enthusiastically during the senator's eight-hour talk with Soviet Premier Nikita Khrushchev in Moscow earlier this year.

HUMPHREY SAID the world situation offers many clues to the cause of cancer that are not being followed up. For example, he said, the rate of breast cancer is surprisingly much lower in Japan than in the United States.

"No good detective passes up important clues," he said. "If we knew the answer as to why that difference occurs, we might perhaps be able to save the lives of thousands of American women."

Branding as false any reports that Greyhound Bus Lines are leaving Palm Springs, bus line official G. B. Rieley told Palm Springs City Council this week that Greyhound is looking for new quarters in the resort city.

Rieley said that the local service has been notified that it must vacate the present facilities by July 31 (this date has been verbally changed to Aug. 31, but no official communication has been received by the company.)

Company spokesmen said that they were "very interested in securing better facilities in Palm Springs" and indicated they would "move fast as possible in getting the new quarters."

Several places are being considered by the company.

Flying Saucer Fans to Meet

Riverside County flying saucer fans were today invited to hear a talk on "Space Law Versus Man's God" in Elsinore Thursday.

The Riverside "Understanding Unit 22" is sponsoring the talk by Ralph R. Huffman at the Golden Rule in Elsinore at 8 p.m. Huffman addressed the recent, first national convention of flying saucer clubs in Los Angeles.

The "Understanding Unit" was described by club spokesmen as part of an "international and interplanetary organization established to bring out greater understanding among all people of Earth and to make available to them more of the higher understanding from beings of other planets."

Since 1954, the United Kingdom has purchased about 55 million pounds of surplus U.S. cotton, more than any other country. Indonesia is second with more than 25 million pounds.

If Legend True

Composer Rossini Must Be Turning Over in His Grave

By GEORGE LAINE
If it's true that abuses of great art make the authors of those works turn over in their graves, you may henceforth refer to Gioacchino Rossini as "Pinwheel" Rossini.

In fact, the storied Italian opera composer may even be in orbit after Friday's Redlands Bowl production of his "Cinderella," seventh item on the Bowl's 19-event calendar for the 1959 season.

ROSSINI MIGHT have halted in mid-spin a couple of times, however, to note some fairly spectacular vocal fireworks by contralto Margery MacKay and tenor Arthur Ross-Jones and a generally excellent accompaniment by the Bowl Symphony.

But, largely, he would have had more than small difficulty in identifying Gil Gallagher's translation — plus a ballet "added" to his original work — as the same "La Cenerentola" that overjoyed Rome opera-goers in its 1817 premiere.

WHAT GALLAGHER did to Rossini's opera shouldn't happen to Rogers and Hammerstein.

Instead of a melodrama in two acts, the translator's work was sung in non-understandable English which was considered an improvement on the non-understandable Italian converted Rossini's work into three acts with the third having three scenes. (The program also erred in avowing that the third act had but two scenes.)

REDLANDS' OWN Glynn Ross added a ballet of debatable consequence and the result was a sort of aimless, foot-shifting, is-it-really-over feeling at the close of Act I.

From Page 1. MORE ABOUT—

COLLEGE PRESIDENT

lege for all time to come."

DR. McCALL LISTED three facts which he feels figure prominently in the "economic impact" of the college on the total area it serves:

—Tax money previously paid to other parts of the state for tuition will be spent throughout the district when the college opens.

—Parents will be saved the cost of room and board for the children away from home.

—Whether the college is located nearer one community or another makes essentially no difference economically to the merchants of any area.

IN EXPLANATION of the last point, Dr. McCall contended that most students will be living at their homes and, therefore, will spend their money in their own home towns.

"Thus, whether the college

It wasn't really worth the trouble that Ross took since the ballet was not exceptionally worthy and the leads — Sally Sinkovics and Diane Yates — failed to show anything above the average of rural ballet school standards. (It should also be mentioned that Ross "borrowed" the seldom-heard ballet music of Rossini's "William Tell" for the ballet.)

SCENERY FOR the opera consisted of four panels which were turned in one direction to indicate Cinderella's living room, in another direction to indicate the prince's castle. Even with the paucity of set, the production had great difficulty in getting started on each act. The program started at 8:40 instead of the announced 8:15. There was a 25-minute intermission between Act I and Act II and a 20-minute pause (?) between Act II and Act III.

Some of the lack of scenery was alleviated by the elegance of costuming. Without exception, the garb worn by men and women members of the cast was lovely and served to partially create the illusion of a "real" Rossini opera.

NOW TO THE singing.

Miss MacKay, a lovely brunette, compensated for a lack of technical mastery — particularly noticeable in the savage array of cadenzas assembled within her role — by singing somewhat slower than called for and by asserting herself dramatically.

Arthur Ross Jones — bless his heart — showed the 6,000 assembled patrons that it is not necessary for tenors to be effeminate. He sang his role with gusto, with aplomb and with perfection — save for some cracking on his upper register late in the production.

THE SAME PROBLEM that has confronted Palm Springs concert organizations rose to haunt the Redlands Bowl management Friday — an unschooled audience.

"Cinderella," as written, isn't totally a children's opera. (The addition of a mediocre ballet was probably thought a device to make it more palatable to the kiddies.) At any event, the audience did manage:

—To chatter loudly throughout the entire production.

—To allow tiny children to race madly up and down the aisles, also throughout the program.

—To applaud at various points in the program, obviously without taste or direction.

IT SEEMS STRANGE to this writer that both the Redlands and San Bernardino music reviewers could have sat in the same bowl that your reviewer sat in Friday and not have noted some of these deficiencies.

Said the Redlands "critic": "It verified the thesis upon which Redland Bowl stands — the best will appeal to the most."

The San Bernardino writer said that it was mostly nice — including the "pretty ballet" — but that, after all Rossini "only wrote one master-piece."

Which gives rise to the next thought: Can someone figure out a way to stop Rossini from whirling.

5150 Summer Rate

5 MIN

WITH A CAST OF 100 singers, dancers, comedians and musicians, the nationally famous Robin Hood Band, directed by David Baskerville, producer and director, will stage their colorful "Stars of Tomorrow" musical revue in the Playhouse Bowl, Repplier Park, Banning, Thursday evening, July 23, at 8 p.m. This will be Palm Springs night in the series of summer "Evenings in the Park" programs, and the citizens of this city will be honored.

VILLAGE NIGHT SET AT BANNING BOWL

BANNING — Palm Spring night will be observed this Thursday evening July 23, in the Playhouse Bowl Repplier Park here when the nationally famous Robin Hood Band, with a cast of 100 singers, dancers, comedians and musicians presents the two hour "Stars of Tomorrow" musical revue on the big outdoor stage. Curtain time is 8 p.m. There is no admission charge.

Prior to the performance, honored guests from Palm Springs will be introduced. Mayor Frank Bogart, City Manager Dan Wagner and members of the City Council of Palm Springs have been extended a special invitation by Mayor John Raatz of Banning. Likewise, the president and board of directors of the local Chamber of Commerce have been extended similar invitations by the Banning chamber of Commerce.

A special section will be roped off in the 1,200-seat amphitheater for Palm Springs residents.

Among the appearances of the Robin Hood Band include two at the Hollywood Bowl, two in the Pasadena Rose Parade, a recent televised network show from Disneyland, a featured spot with Art Linkletter's network show, an other spot with Jack Benny and Bob Hope and scores of other theater, radio and TV appearances. Now on their Western tour in the leading cities of the Pacific Coast, the talented group will be featured at the Seattle Sea Fair for four days as one of its top attractions.

THE FEATURED performers of "Stars of Tomorrow" were selected from the outstanding young talents of Hollywood, many of whom have appeared in such productions as "South Pacific," "Guys and Dolls," "Damned Yankee," The Colgate Comedy hour and other TV and radio productions.

Among the featured artists are the "Honeytones," a clever young singing trio; George Daines, handsome young baritone; Diana Louise, young soprano; Michael Stefano, winner of a Los Angeles County singer's competition; and a line of sharp dancers known as the "Caperettes."

A number of instrumental virtuosi are also featured. The concert band presents symphonic literature as well as novel interpretations of popular music.

Don't Forget

Take The Desert Sun and Dennis the Mennis on Your Vacation No Extra Cost For Mailing

PRODUCER AND director of "Stars of Tomorrow" is David Baskerville, formerly of NBC and 20th Century Pictures. He is responsible for many of the unusual arrangements.

The 85-piece Robin Hood Band comprises actually three bands: First the parade band; the second "band within a band" is the concert band with an unusually broad instrumentation, and the third is the Robin Hood Music Makers, a 20-piece modern dance band with assists in rendering the contemporary styles.

The company of 100 entertainers requires two charter buses, two station wagons, a wardrobe trailer and a custom-built 10-ton truck to transport itself. The musical show carries elaborate staging and lighting equipment, as well as 300 costumes and 11 tons of equipment.

The Almanac

Today is Wednesday, July 22 the 203rd day of the year, with 162 more days to follow in 1959. The moon is approaching its last quarter.

The evening stars are Jupiter, Saturn, Venus and Mars.

On this date in history: In 1864, Confederate troops were defeated by the forces of General Sherman in the first battle of Atlanta, Georgia.

In 1920, Ohio senator Warren Harding accepted the Republican nomination for the presidency.

In 1932, Congress passed the Home Loan Bank Act.

In 1933, the first solo round-the-world flight was completed by Wiley Post in his plane the Winnie Mae.

In 1934, the law caught up with John Dillinger and cut down the public enemy number one as he left the Biograph Movie Theatre in Chicago.

In 1937, the Senate defeated a move by President Franklin D. Roosevelt to reorganize and enlarge the Supreme Court.

Thought for today: Civil War General William Sherman said, "War is cruel and you cannot refine it."

Carter Attends Summer Session

Thomas Carter of Palm Desert is currently attending the largest summer session on the new campus at the University of California, Santa Barbara.

More than 800 students are enrolled in the six week session which is featuring special courses for teachers leading to fulfillment of credential requirements as well as varied curriculum in the liberal arts which meets degree requirements.

The Rhesus monkey, so widely used in medical and outer-space research, has given the first two letters of its name to what is so widely known as the Rh factor in blood.

Benson Policy Attacked by Lionel Steinberg

A Palm Springs agriculturalist—writing in the July issue of Frontier Magazine—has charged that Agriculture Secretary Ezra Benson's administration of the nation's farm situation has driven 4,000,000 Americans "off their farms."

Lionel Steinberg, who owns and operates vineyards and other crop fields in the Coachella Valley area, accused Benson of having a "surplus psychosis."

BENSON, THE Village farmer continued, "is petrified by a years surplus of wheat, corn and cotton." The Agriculture Secretary, Steinberg charged, "has presided over the liquidation of 600,000 farms" since taking office.

Steinberg's treatise, titled "Food Freedom and a World in Revolution," demands that the United States take bold steps for leadership in the battle to keep food in the stomachs of the worlds growing population.

"TWO THIRDS of the people of the world go to bed hungry every night of their lives," Steinberg's essay details.

Financial Federation

New Resource High Reported

Total resources of the seven California savings and loan associations which comprise Financial Federation, Inc., including the Coachella Valley Savings and Loan of Palm Springs, reached an all-time high of \$188,977,000 on June 30, 1959, it was reported this week. This was 19.5 per cent above the \$158,203,000 on December 31, 1952 and 29.2 per cent over the \$146,284,000 on June 30, 1958.

Savings on the latest date were \$148,216,000, a 14.5 per cent increase from the \$129,481,000 at the year-end and 25.9 per cent more than the \$117,716,000 on June 30, a year ago.

MORTGAGE LOANS were \$151,690,000, an increase of 16.4 per cent from \$130,336,000 on Dec. 31 and 29.5 per cent over the \$117,716,000 on June 30, a year ago.

Combined first-half operating earnings on a cash basis, before appropriations to general reserves but after minority interests, are estimated by Financial Federation at \$1.65 a share on the 1,002,561 shares now outstanding.

THIS IS AN increase of 41 per cent over the \$1.17 per share earned in the first six months of 1958. Book value per share on a cash basis was \$11.78 on June 30, 1959, 14 per cent higher than the \$10.33 on Dec. 31 and 31 per cent above the \$8.99 at June 30, 1958.

A recent survey determined that Britons bought 260,800,000 pounds of tobacco products in 1958 compared with 256,000,000 the year before.

How to Lift a Missile

ABOARD C-133 No. 62007 — "That's where we dumped yesterday," said Staff Sergeant Ronald Carlson (Albany, N.Y.) pointing to a spot in the Pacific Ocean.

He meant that yesterday there was a propeller malfunction on this aircraft, requiring the plane commander, Capt. John Watson (Evans Mills, N.Y.) to discharge 30,000 pounds of jet fuel in order to make an emergency landing. Nobody except this reporter seemed to regard this as much of an experience. "Standard operational procedures," said Captain Watson with the sangfroid of a 17-year Air Force veteran.

BUT THIS REPORTER has never been able to cultivate a bias attitude toward military aviation. Every mission has its own romance. This particular Air Force assignment calls for a journey of better than 6,000 statute miles, from California to Britain. We are carrying 67,142 pounds of support equipment for the Thor, a 1,500-mile missile to be delivered to a Royal Air Force station of classified location.

This morning before takeoff I saw the Thor projectile at the start of its journey in another aircraft of the transport fleet. Thor, an intermediate range weapon that is ideal for the distance of West Europe, has been exhibited at a number of static displays and is reasonably familiar to interested folks.

BUT THE GROUND support equipment of the Thor is about

four times as large as the missile itself and is many times more secret. The largest item aboard is a 33,000 pound liquid oxygen (LOX) tank. But for the most part the load is electronic gadgetry, not easily comprehended.

It is enough to write that the U. S. Air Force is busy transporting critical material close to one-third of the distance around the world. Since the end of World War II, we have repeatedly risen to crises — in Berlin, Hungary, Korea, Formosa, Viet Nam, Lebanon — by the handy use of airlift, rather than air power. It seems you can't have one without the other.

LIKE ALL NORMAL Air Force transport flights, this one has a dual purpose. We are sending the Thor missile to Britain, but are also training rookie airmen. Three of the seven crew members are instructors. Besides Captain Watson, there is Captain Edward Fox (Port Jefferson, Long Island), pilot, and Master Sergeant John Roberts (Richmond, Calif.), an instructor-engineer. Captain Allan Jensen, (Attica, N.Y.) is on board to do some "slick time" as pilot. Staff Sergeant Clarence Hertz (Easton, Penna.) is a student flight engineer. During most of the flight the cockpit is an attentive classroom.

Air Force flight crews are not unionized. Their duty-day is 21 hours. They seldom know when they report to Operations where the next trip will take them, or who their fellow crew members will be. All this is a far cry from the close camaraderie of wartime

flying where crews stuck together for the duration and usually flew the same aircraft until it got shot down.

THESE ARE advantages which the Air Force has had to discard because of limited skills and equipment. Today, with flight crews and maintenance crews so specialized and individualized, a wholly new kind of morale and discipline must be developed. Instead of unit esprit, a man needs the inspiration of pride in work and sufficiency of family income. The five married men of this crew have a total of twelve children.

Among the specialists aboard is Airman Second Class Edward North (Camden, N.J.) this aircraft's loadmaster. Airman North is a graduate of two service schools. At Tachikawa, Japan, he studied weights and measures as applied to aircraft systems. He has the big job of supervising the loading and placing of the cargo, keeping in mind its weight and balance.

HE IS ALSO responsible for restraining the load during in-flight turbulence. In addition to knowing air freight in general, Airman North took a course at Sheppard Air Base, Texas, in the delicate work of loading missile systems. He studied the ability of Air Force planes to carry missiles.

—Holmes Alexander

Still Icy On the Summit

This Side of The Sun

By Phat

With this packing I soon will finish. Then to ride again in the 'Varnish

Chicago, Ill.

Sunday, 7-19
(*—Varnish, that's what our railroad men call the plush passenger equipment.)

ALL GOOD THINGS must come to an end although this isn't ended yet. After tonight in an immovable bed, I've got four nights in a Pullman coming up. I planned it that way. That's really the most nights you can spend on a train from Chicago to Los Angeles. Via Seattle, Portland and Salt Lake City.

PERHAPS I AM psychopathic but I sleep best when it is noisy. Like at the beach when the surf is real angry, or when the thunder is good and loud. And on a train.

Even police car, fire truck and ambulance sirens play a lullaby. Only thing that keeps me awake is a loud radio or human yakety-yak.

MATTER OF FACT, when it's peaceful and quiet outside, no trucks, no sirens, that's when I get up and read Who-dunnits. And swell Gov. Brown's cigaret tax.

Well, anyway, tonight I get my final going over by the kids. Understand they've invited three neighbor children in to help them out.

GOV. BROWN's cigaret tax reminds me. I am going to reinstate an old practice of mine which has an important bearing on my economic status.

When I get back to The Sun office, I am going to be a two-pack man. Not necessarily that I smoke two packs a day—but that I carry two packs with me at all times.

WITH THIS TAX adding three cents to the pack, it has increased the number of moochers. The fellows who decide to quit to save money but still have the urge. They cut down on their own purchases and eke out by bumming.

My two-pack idea, which I will allow anyone to use with out exacting a commission, is simple.

SEQUESTERED in a hip pocket will be a pack with many cigarettes in it. That's for my own private use.

Up, out in front in plain sight in my shirt pocket, will be another pack. It will have one lone cigaret.

The regular guys, the honest ones even if they are bums, will never take a man's last cigaret. That's a tradition.

The system worked fine and saved me much money a couple of years ago during the cigaret scare which swept the land.

Only time it failed was when some mooch either didn't know, or care, about the unwritten law.

Even then you could beat it. Just transfer one cigaret from the private stock to the public pack. And start over.

Tomorrow night I'll be in the land of Hamms and the sky blue water.

STAN DELAPLANE'S Postcard

We are planning to go to France and believe me the pen of my aunt is not on the table. "La plume de ma tante n'est pas sur la table."

That is the way we said it at Monterey, Calif., Union High School. "The pen of my aunt is not on the table."

I DO NOT KNOW if they say it that way in France. But if they don't they had better learn tres vite. For that is the way I am going to say it. I am too old to start learning languages differently.

"La plume de ma tante n'est pas sur la table," said Miss Quicksand. And that is the way I learned it and intend to say it.

WELL, THE PLUME of my aunt is not on the table. For the very good reason that my child had borrowed it to write a letter.

We have had an agreement for 13 harrowing years: "Never, never, never borrow ANYTHING of mine!"

"Yes, Daddy."

"ESPECIALLY MY comb because you NEVER give it back." "Yes, father."

"Nothing is to be borrowed, understand? It is not, dear child," I said, "that I wish to be mean to you. But I do not want to lose a friend."

"Yes, sir."

NOW THE PLUME de ma tante — it is really my own pen but I got started on a French sentence and I cannot halt it. This plume de ma tante is very important to me. Because I am filling out some official documents.

How then, when we have had this 13-year agreement, did it get borrowed?

"I just borrowed it for a minute. And then I put it down and I think Scott picked it up or something."

SCOTT IS THE boy. He is 4-years-old and picks up everything not nailed down. (If it is nailed down he manages to wrench the nails loose and takes it anyway.)

He gets blamed for everything. He does not mind. He is a happy child and knows I am a pigeon for him.

He's got the place swinging. Henry-Slate said, "This is going to be a great talent — as soon as he finds out what he's doing."

Nicky Hilton gave Bob Neal, Debbie Reynolds' number one beau, a ring with what appears to be a Chinese design on it—but when you study it carefully you see that it is an unprintable English word. Nicky told Bob, his close pal, "Everybody has initials on his ring—I've given you a ring with your whole name on it."

It's predicted that rings with naughty words on them will become a Hollywood fad.

I HAVE POINTED out that is how daughters disappear, too. They fall off and crack their lovely skulls. And they are killed dead! That's what happens.

Even so, my Berlitz book has disappeared. And I don't know what the French will think of me, when I cannot even remember how to say "the book of my uncle." Alors, hélas! Quel dommage!

"THE TRAVEL BOOK says: 'You will experience no difficulty as nearly everyone speaks English.'"

That is shouted advice from a book — climbing, pen — losing teen-ager who knows practically everything.

It is a funny thing about foreign lands. EVERYBODY speaks English. Everybody but the person I am talking to. Boy, do I run into some dumb people.

NOT ONLY THEY don't speak English. They think I am pretty square not to speak THEIR language.

I cannot explain that I cannot talk their language. Because I have lost the book of my uncle.

I cannot even write it to them, because somebody has not put the pen of my aunt back on the table. C'esta blasted vie, n'est-ce pas?

EARL WILSON:

Judy Has A Weighty Offer

BEVERLY HILL — Judy Garland's going slimming — no, not slumming, slimming. If she slices off 25 pounds she comes into \$100,000. That sum promised her by Charles Wacker of Chicago and others who want her to look her old sylph for a movie they're starring her in called, "Gaiety Girl," from the book, "Born In Wedlock."

Judy's already selected the place where she's going to do-or-diet; she takes off on her taking off this week. If my figures about her figure are accurate, every time she loses a pound she'll gain \$4,000. Judy estimates that after about one month she'll be able to have her friends over to see her new figure and her new money.

I saw Hubbell Robinson, CBS' ex-president in charge of program ulcers, at Chasen's, and noticed he looked rested.

"Since I left CBS I haven't watched any TV except baseball," he confessed, "and do you know, it's quite a relief."

I wouldn't say that the popular Slate Bros. saloon is dark—but I came in the door and shouted, "Well, if it isn't Lou Nova!" to the body that loomed before me — and it was Tina Louise.

Tina was with Mamie Van Doren's ex, Ray Anthony. We were there to catch that controversial Southern, way-out comedian, Dave Gardner, who's frequently seen with Jack Paar.

After greeting us as "dear hearts," and exclaiming, "Joy!" in the manner of an evangelist, he said, "It's easy to be a success in life — there's so much competition among the people trying to be failures."

He mentioned a friend going south to retire, and asked, "Did you ever hear of anybody retiring to the north?" Following which he said, "Weigh that, fellows."

He's got the place swinging. Henry-Slate said, "This is going to be a great talent — as soon as he finds out what he's doing."

Nicky Hilton gave Bob Neal, Debbie Reynolds' number one beau, a ring with what appears to be a Chinese design on it—but when you study it carefully you see that it is an unprintable English word. Nicky told Bob, his close pal, "Everybody has initials on his ring—I've given you a ring with your whole name on it."

It's predicted that rings with naughty words on them will become a Hollywood fad.

EARL'S PEARLS—Today's girl is very practical. Before she worships the ground a man walks on, she makes sure he owns it.

TODAY'S BEST LAUGH—A local man described his wife: "All a Bikini does for her is show her appendicitis scar."

MIKE CONNOLLY:

Sacramento, Not Missouri

HOLLYWOOD — Fox is fuming at Barrie Chase for scrambling "Can-Can" because another dancer named Shirley MacLaine got the biggest dancing part. The studio may punish Barrie by barring her from doing Fred Astaire's next TV spec — and it was her dancing on Fred's last spec that won Barrie her Fox contract!

I'm not from Missouri but I know several people from there and none of them are a bit happy about Sam Goldwyn Jr.'s plans to shoot the Mississippi River scenes for Mark Twain's Missouri — originating "Huckleberry Finn" on the banks of California's Sacramento River.

Sam, incidentally, is paying Archie Moore the champ to play Jim the slave in "Huck."

SAM GOLDWYN SR.'s "got plenty o' something" in "Porgy and Bess." His love for all the Catfish Row characters radiated from the screen of Hollywood's Carthay Circle Theatre at the flossy Cedars of Lebanon benefit premiere like all the lights of Broadway and Tokyo's Ginza combined.

During the intermission I asked Sam if he considers this his best picture. He smiled and replied, "I love ALL my children equally, from Stella Dallas and Dodsworth and Hans Christian Anderson to Porgy and his sweetheart Bess."

AT THE BEVERLY Hilton party following the premiere, Frank Sinatra and Dean Martin auctioned off jewels and furs, raising \$13,000 on top of the \$38,000 raised by the Cedars Guild, and Sammy Davis Jr. sang and strutted some of his stuff from the picture, in which he plays the part of Sportin' Life. Sammy's stuff was a breath of Charleston and the Old South before cotton crops were rotated and brilliant were wired for sound—brilliant!

Jack Warner bought a \$300 mink stole off the pretty back of Mrs. Sammy Cahn for \$1,500 — and then auctioneer Sinatra sold George Brown the mink's hanger for \$300. Harry Karl bought a \$1,000 pair of diamond-and-pearl earrings for \$1,500 for his date, Donna Douglas.

Here's a silly I sidswiped from Kirk Douglas's table, same party: "As far as this summer's swimsuit situation at the beach is concerned, those new bikinis are shocking, shameful, entirely too revealing—even better than last year's!"

FOX — TV, HAPPY over the prospects for its new Adventures in Paradise series with cover-boy-loverboy Gardner McKay, is prodding Guy Madison to star in another called Formula for Adventure. Madison's ol' bud dy Andy Devine from the Wild Bill Hickok shows shed his "Jingles" jodhorns for a starring part in a Wagon Train segment titled "The Jeff Macabee Story."

Paulette Goddard's part in one of the first Paradise segments (the show shoves off this fall) is that of the ex-madam of a Chicago house of ill repute, allegedly the notorious Everleigh Sisters' place.

Eye-Witness Report From Inside Russia

MOSCOW, USSR (Uncensored, released out of Russia) — Red square in Moscow tonight is just as ominous, silent, dreary as I have seen it over the years since my first look in 1931. The only bright spot from my window of the Hotel National is the giant lighted red star atop the Kremlin's Spasskaya tower.

Since I was here less than two years ago there have been many changes in Russia. . . more huge apartment houses . . . more cars . . . more goods and fashions . . . more stores . . . more queues for food, more delays, more shortages.

A FATHER of eight told me that some member of his family has to stand constantly in some line all day to buy the needs of the household.

Stalin's portraits are becoming conspicuously absent from their old prominent places. Prices are higher. . . (it costs me \$50 per day to move about in Russia, without entertainment or non-essential expenses).

"RADIO MOSCOW," one of the most powerful stations in the world, has increased its daily broadcasts from 34 to 45 languages. . . while the U. S. "Voice of America" still broadcasts in 25 languages. "Radio Moscow" broadcasts twice as many hours per day as the "Voice of America" at present.

For the first time behind the Iron Curtain, I could really move freely. . . no secret police, no guide, no restriction. The Russian people speak to me more freely. . . the children openly asking for gum, U. S. coins, pictures, souvenirs.

U. S. TRAVELER'S checks or currency are worthless in Russian stores, they must be converted into Russian rubles at official places only. . . at 10 rubles to the dollar.

Tipping is forbidden inside Russia by government decree, but most everyone now accepts tips. Gasoline, still very inferior to U. S. lowest grade) has been reduced to 50 cents a gallon since my last visit.

FOOD IS LESS expensive especially for the foreigner: A glass of milk is now 40 cents, used to be 60 cents. . . glass (cup) of coffee is 25 cents, used to be 70 cents. . . tomato salad 60 cents. . . roast turkey \$1.50. . . ham and eggs \$1.00. . . caviar \$1.33 per small portion. Sale of whiskey is prohibited in Russia. Vodka, champagne and wines are plentiful.

Russia is absolutely no tourist-shopping paradise. . . everything is expensive, shoddy and inferior by U. S. standards. There are no charge accounts, credit accounts or deliveries. No one tries to sell you anything anywhere.

THE STORES DO no advertising. . . there are no special sales, no bargain prices. It's take it or leave it. The stores are open from 8 a.m. to 8 p.m. . . Sundays from 8 a.m. to 6 p.m., but closed on Mondays. Everything inside Russia is government owned, except a few vegetable and flower stands.

In a Russian theater you never hold your coat on. . . it is considered vulgar not to check it. The ballet, theater, etc., start at 7:30 p.m. and usually end at midnight with several long intermissions for food snacks and refreshments in the lobby.

COMPULSORY EDUCATION was introduced in Russia in 1930 in a limited way. Since 1944, and confined to the large city areas, it is now compulsory from age 7 through the 10th grade. The schools are far below U.

S. or European standards, except the "show - window" of Soviet education, Moscow university, which is some 34 stories high and has probably the largest campus in the world.

THE MINISTRY of Education provided me with the following education figures: "In Russia there are 225,000 elementary and high schools with 40,000,000 students and 1,700,000 teachers. . . 800 colleges and universities with 60,000,000 attending classes."

These figures appear greatly exaggerated to us. Divide them by at least half. Many "elementary schools" in the country consist of a room, not even a building.

RELIGION and religious education is permitted without restriction, so long as no derogatory reference is made to Communism. The government asks all churches. . . Christian, Moslem, Buddhist, Hebrew. . . not to violate the basic principle of separation of the church and state established in the Soviet constitution in the early '20s.

For years the Russian people openly protested wearing "vatniks," cotton - padded uncomfortable jackets with bulky buttons. . . and finally won their point. Khrushchev took time out from the crisis over Berlin to announce that the "vatniks" will now be supplied with zippers, at no extra cost.

WITHOUT WARNING recently Khrushchev issued an edict limiting the production and consumption of vodka, resulting in the concocting of homemade bathtub vodka.

Now the government - controlled press is calling for new laws to ban "private enterprise" in the production of homemade vodka. It seems that private vodka is selling better than government vodka and at lower prices.

—John Morley

Quotes From the News

NEW YORK — Former boxer Don Sibel, 44, after he had halted a fleeing bank robbery suspect with a left hook to the jaw:

"It didn't look as if anybody would stop him. I was right in front of him and I swung, and that was that."

WASHINGTON—President Eisenhower, discussing his problems of getting along with the House and Senate:

"Now, when it comes down to the relations of any President with a Congress controlled by the opposite party, just say this—it is no bed of roses."

BETHLEHEM, Pa. —Steel Union President David J. McDonald, addressing strikers while touring picket lines here:

"The concessions the industry has demanded would rape the

union contract. They want to destroy all you've worked so hard to get."

BUFORD, Ga.—State Prisons Director Jack Forrester, after his threats had quelled a "sit down" strike by 111 convicts at a prison rock quarry:

"We didn't make any concessions. We're going to run these prisons if we have to pack them

in isolation like college boys in phone booths."

EL PASO, Tex. — Louisiana Gov. Earl Long describing his feelings about reporters who have been dogging his footsteps:

"I had a pistol last night and it was all I could do to keep from pulling it out and shooting some of them."

Letters to the Editor

Editor The Desert Sun

The Palm Desert Chamber of Commerce wishes to thank you for your generous cooperation and many efforts extended towards publicizing our recent FUN FAIR here in Palm Desert. The event was a huge success

and as you know, much of that success was due to the publicity given in advance. We are indeed grateful to you as a paper and to all those working on the staff.

Sincerely Yours,
Russ Tate
Manager

Tomorrow night I'll be in the land of Hamms and the sky blue water.

GRIN AND BEAR IT By LICHTY

"I think I'm getting an inferiority complex, doc! . . . I've reached the stage where I even hesitate to say: 'May the best man win!'"

Annual JayCee Summer Luau Success

More Than
100 Members,
Guests Attend

An incomparable desert July moon and a myriad of stars twinkling in the sky made a perfect setting for over 100 JayCees and Jayceettes when they held their annual luau for members and guests at the Desert Inn Saturday evening.

Flaming torches, Chinese lanterns, fish netting, bamboo Hawaiian posters, a little grass shack, Hawaiian garb and graceful hulas, transformed the setting into a Polynesian paradise. Candlelit tables were set up poolside and the guests served themselves from the long buffet table loaded with Hawaiian delicacies which included, barbecued chicken and ribs, almond rice, fresh pineapple and watermelon, tossed green salad, rolls and coffee.

The almost professional entertainment provided by members of the JayCees, with Bill Bronstein acting as master of ceremonies, was one of the highlights of the evening.

The first number on the program, "In the Middle of an Island," featured Bill Bronstein surrounded by lovely hula dancing girls and was followed by several lively numbers which included a solo number by Mrs. Nick Mutascio entitled, "Hapa Haele Hula Gal," "Little Brown Gal," Mrs. Wayne Huffman and Mrs. Bill Bronstein; "Nakapueo," a dance using the epe gourds by Mrs. Nick Mutascio and Mrs. Pat Mutascio; "Hula-Lo-Lo," Mrs. Bill Bronstein; Mrs. James Schlecht, Mrs. John Martin, Mrs. Larry Coulton and Mrs. Wayne Huffman.

"Hilo-E," a colorful costume dance, was presented by Mrs. Nick and Mrs. Pat Mutascio; Mrs. Gene Bergeron won much applause when she performed the rollicking number "When Hilo Hattie Does Her Hilo Hop;" "Princess Poo-Poo," a comedy routine, was performed by Mrs. Bill Bronstein, Mrs. James Schlecht and Mrs. Wayne Huffman.

Mrs. Nick and Mrs. Pat Mutascio, in colorful red and yellow costumes and matching feather gourds, concluded the entertainment with the lively "Hawaiian War Chant."

Poolside dancing followed, together with swimming in the spacious pool.

Special guests for the evening were Mr. and Mrs. Rex Flint, national director from Riverside, and Mr. and Mrs. Len Gold, state vice president of Rialto.

Committee members who worked so hard to make this evening a success were Mrs. Hy Ranes, who supervised the decorations; Mrs. Ted Land, food, and her committee, Mrs. David Fisher, Mrs. Larry Coulton, Mrs. John Martin, Mrs. Ross Dille, Mrs. Lee Muhleck, Mrs. Ray Chapman, Mrs. Donald Wexler, Mrs. Wayne Huffman, Mrs. James Schlecht and Mrs. Bill Bronstein.

Ticket and invitations chairman was Mrs. Larry Coulton. Marty Johnson was awarded a native costume hat as winner of the door prize.

To separate contents of frozen vegetable packages, strike unopened package against a kitchen work surface.

Neenah Hall, Miss Neidhart Go to Hawaii

Neenah Hall, who is associated with The Desert Sun, and Dotty Neidhart of California Water and Telephone Company have been saving their pay checks for quite some time for a trip to Hawaii. The two girls left by plane from Palm Springs Tuesday for a month's visit in the Islands. While there, they will stay at the CoCo Palms Hotel on Waikiki Beach. The two girls attended school together and are both graduates of Palm Springs Debs and at one time represented this area in the National Orange Show, San Bernardino. Miss Hall was runnerup to Gloria Neil in the Miss Palm Springs contest held in Palm Springs at the Chi Chi this year. Upon their return and prior to returning to work Miss Hall plans a visit with her mother, Mrs. Louise Hall in Lake Tahoe and Miss Neidhart will visit her sister, Mrs. Jim Mosaca in Seattle, Washington.

To remove acid or perspiration marks on leather, wipe the leather with a cloth dipped in a mixture of one teaspoon of baking soda to a glass of water. Then scrub gently with a soft brush, enough water to moisten the brush, and a generous lather of mild soap.

Perfect Pickle Experimenting Is Under Way

American's spiraling devotion to outdoor eating and sandwiches "with pickle" has caused Dr. J. L. Weigle of Fort Collins, Colo., a lot of work.

The Colorado State University horticulturist started experimenting last year to produce an improved pickle, longer and with a more evenly textured interior.

"It's all a matter of consumer demand," he said. "Where formerly the whole pickle held sway, demand now is for 30 to 40 thin, half-dollar-sized slices per pickle."

Weigle explained that producing a new pickle involves selection and cross breeding of cucumbers. Besides being longer and producing more slices the final product must be free of mottled sections and watery areas.

The horticulturist started last year with 233 foreign varieties, which he scaled down to 25.

This year he is crossing the surviving specimens with standard commercial varieties in search for a pickle with sandwich appeal.

It's a long process, Weigle complained. Only one crop or generation of pickles can be grown each year. Once a growing season is over and the year's best product is selected, further testing must wait until next season.

He figures it will take him six to 10 years to find the perfect pickle.

Potts' Return Home After Viewing Fashions

Mr. and Mrs. Charles W. Potts have returned from St. Louis, Mo., Washington, D.C., and New York where Potts viewed 1960 fashions in preparation for the opening of a men's store in Palm Desert in October.

The couple combined their visits to the fashion marts with visits to relatives and friends in the three cities and also visited in St. Johnsbury, Vt., Mrs. Pott's birthplace.

The Potts reside at 31-350 San Antonio Drive, Palm Springs.

Bertas Enjoy Montana Trip

Joe and Helen Berta and their family are enjoying a vacation in Europe. Latest is from Helen and Earle Henderson who report running into many Palm Springs including General and Mrs. Victor Bertandias, the Fred Klempers (Thunderbird residents) and Theodora and Tom Fleming, all in Cannes.

The Hendersons attended the Royal wedding in Brussels, Belgium, and are at present leisurely wandering over Europe having made no definite travel plans.

Put an old sock over one shoe when painting. If paint drips on the floor, you can save stooping to wipe it by removing the spot with your toe.

And that's why you get on a list.

In 1956, Time, Inc. sold 250,000 subscriptions of its new publication, Life, before the magazine ever appeared by using the company lists primarily of Time and Fortune subscribers.

Ever buy a car? Then your name is on a list either of Reuben H. Donnelly Corp., or R. L. Polk & Co., which compiles all car registrations. Think of the directories your name may be in. Anything from a club roster to the telephone

Sugary dishes should be soaked in hot soapy water. Use cold soapy water for dishes in which egg, fish or dough have been cooked or prepared. Warm water with soap is best for greasy dishes, pots and pans.

LT. EDWARD GRIFFING

Griffing Gets Promotion to Lieutenant

Word has been received that Edward P. Griffing, son of Mr. and Mrs. Stanton Griffing, 2006 South Palm Canyon Drive, has been promoted to lieutenant, USN as of June 1, 1959. He is at present stationed at Charleston, South Carolina, where he is on the staff of Mine Squadron Eight.

Griffing was graduated from Palm Springs High School in 1951. He won a competitive Navy scholarship at Stanford, where he received his bachelor's degree in three years; at the end of his fourth he was commissioned an ensign, USN, and he received a master's degree in mathematics. He has elected to make the Navy his career.

He will join his parents in Denver for a vacation in the Rockies in August.

Villagers Meet In Cannes, France

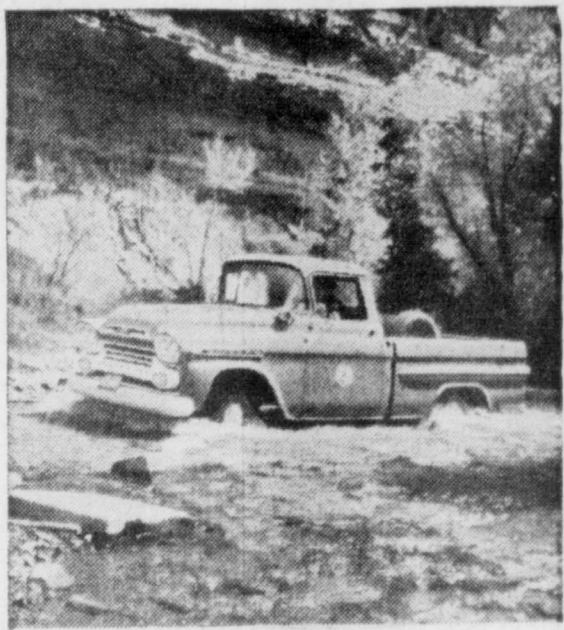

If postcards are any indication, Palm Springs is well represented in Europe. Latest is from Helen and Earle Henderson who report running into many Palm Springs including General and Mrs. Victor Bertandias, the Fred Klempers (Thunderbird residents) and Theodora and Tom Fleming, all in Cannes.

The Hendersons attended the Royal wedding in Brussels, Belgium, and are at present leisurely wandering over Europe having made no definite travel plans.

COCKTAIL HOUR
At the Chi Chi

Up a steep mud-choked wash—Positraction pays off!

Through a mountain stream—deep in Avitaquin Canyon.

NO MOUNTAIN CAT, MISTER...

That's a Chevy with Positraction!

That 3134 Fleetside has the sure-footed ways of a big western bobcat. Roams through high brush country that would buck the life out of most trucks. Crosses streams without benefit of a bridge. Climbs talus grades where pines won't even grow. But that's all routine for this Chevy, equipped with Positraction® rear axle. It's hard at it every day for the Utah Fish and Game commission. Figure about 60,000 miles of mountaineering before this Chevy is traded. And yet the

district officer who drives it would bet his badge the tie rods won't even need replacing! Out in that wild, climbing Utah country, Chevy's suspension and frame and brakes, its Positraction rear axle and Thriftmaster 6 power are proving themselves under rougher conditions than most test engineers could dream up. They're proving that Chevy's advanced engineering and design ideas pay off—in spades—when the going gets especially mean and dirty.

Positraction, of course, is a big plus on this job, providing the sure grip needed to dig through mud, snow, loose sand, whatever comes along. Could be that a Positraction-equipped 1-ton pickup is the answer for your area of operation. Or maybe a 4-wheel drive Chevy. We've got trucks that specialize in getting in and out of any kind of country. Talk to your dealer about your needs. He'll show you what tough trucks are made of.

*Optional at extra cost

No job's too tough for a Chevrolet truck!

See your local authorized Chevrolet dealer!

Space Age Fever, Old West Fervor Highlight New Toys

By GAY PAULEY
UPI Women's Editor

NEW YORK — UPI — Space age fever and old west fervor run an even race in the new crop of toys.

Playthings copied from Cape Canaveral have rocketed up there with cowboy and Indian regalia at the Toy Guidance Council's 13th annual press preview of What's New for Children.

In the space department, there are a parachute rocket powered by water and air pressure, with a nose cone recovery attachment; a two-stage lunar rocket which uses harmless fuel to send it roaring some 300 feet skyward.

A center which propels models of the Thor, Atlas and Titan rockets by mechanical power; a battery powered "count down" rocket and missile launcher, and an astronomy set which provides for projecting film and slides on the walls of a darkened room.

Melvin Freud, council president said that the rash of theater and television westerns had stimulated the sale of toys with the flavor of the old west.

On display at the council are electric train models of the "iron horses" of a hundred years ago. Shootin' irons run the gamut from 30-shot repeater pistols to built in sounds of ricochet, to belt buckle pistols and guns in holsters for little marshals.

Freud said the variety of dolls, the all-time best seller for girls, is more extensive this year than ever. Included are a group scaled to child-size. The manufacturer checked government statistics before producing dolls scaled to six months, one, two, and three-year-old children.

New also: A sick doll named "Marybel." She comes down with chicken pox or measles, by attaching pink, spotted decals to her face. She also comes acc-

sorized with crutches and bandages for her limbs, in case she really gets battered.

The council was organized 21 years ago to encourage manufacturers to child-test toys before they went on the market, and also to help promote the sales of playthings the year round instead of just at Christmas.

Freud said that today "98 per cent of the manufacturers support it on a voluntary basis." A panel of six educators, headed by Dr. Emma Sheehy, Professor of Education at Teachers College, Columbia University, meets every two weeks to judge new toys on the basis of safety, construction, and play and learning value.

Freud said eight to 10 thousand toys are submitted each year. About 475 get approval of the panel and a select group of jobbers. The latter must buy a percentage of what they okay.

Sometimes a toy gets thumbs down from the panel, but the jobber take it anyway because they believe it will sell. One type is the "paint by numbers" sets. Educators say it does not encourage a child's creative ability. But it is a best seller.

High priced toys about this year. For the child who has everything else, there is an electric organ for \$90 and a pool table for \$90.

"Twenty years ago if a manufacturer had offered a toy other than electric trains for \$90, he would have been told to see a psychiatrist," said Freud.

FRANCIS CROCKER, member of the board of directors of Palm Springs Chamber of Commerce, congratulates Mayor John Raatz of Banning at the opening of the new Department of Motor Vehicles office in Banning. The new State of California facility makes it possible for desert residents to avail themselves of the complete services of the Banning department. The office will be open full time Monday through Friday.

WATER POLLUTION LAWS TIGHTENED

New laws designed to protect California's water resources from the dangers of contamination or pollution were a key phase of state legislative action on water problems this year, Assemblyman Lee Backstrand reported today.

Backstrand said that four new provisions of the water pollution control law of 1949 have strengthened regional water pollution and control boards and increased their effectiveness.

THE ASSEMBLYMAN from the 71st District explained that regional board authority is particularly effective now in controls of sewage and industrial wastes emptied into state waters.

Revisions of the old law, which had "demonstrated its value to the welfare of California residents," were keyed to rapid population growth, industrial growth, the increase of per capita water use and even the vast increase of small boat operators.

An Assembly interim committee on bay and water pollution was organized in 1957 and devoted two years to preparation of revisions, which were passed by both houses and signed by the governor at the recent legislative session.

THE FOUR BASIC changes incorporated in the revised law: —A specific declaration of state policy with respect to disposal of wastes in water, stating that because of widespread demand and the need for full utilization of water resources for beneficial use, discharge of wastes shall be so regulated as to achieve the highest quality of water consistent with maximum benefit to the people.

—Membership on each regional

board was broadened to include two additional representatives, one from a recognized non-governmental organization associated with recreation and wild-life, the other a representative of the general public.

—REGIONAL BOARDS were given authority to protect sensitive areas from waste discharge of any kind, and to limit discharge to less than the full capacity of the waters involved.

—The boards were relieved of the need to prove that pollution is being created by violation of the law before abatement action can be taken in court.

CRISS-CROSS

RULES: Using the following 16 letters in the blank squares below how many words can you form either vertically or horizontally? Use same word only once and no plurals please. When words contain less than 5 letters and are in same line—i. e., "TOICE" scoring is 1 pt. for word "TO" and 3 pts. for word "ICE." MAXIMUM NUMBER OF POINTS PER LINE IS FIVE. To assist you, we have inserted a few clues, which include additional letters.

The Tip-Off

BUFFALO, N.Y. (UPI)—Vincent J. Carbone Jr., 34, was sentenced to a year in the penitentiary for selling a television set so he could get enough money to bury his mother.

Sentence was imposed after city judge Joseph P. Kuszyński determined first of all that there was no TV set and, second, that Carbone's mother was still alive.

What's Your Postal I. Q.?

POSTAL INSPECTORS CAN OPEN AND READ YOUR LETTERS.

TRUE ☐ FALSE ☐

WELL, WELL! WHO WOULD HAVE THOUGHT THAT! THIS ONE IS THE BEST YET!

FALSE. Sealed first-class mail while in custody of the Post Office Department is accorded absolute secrecy. No persons in the Postal Service may break or permit the breaking of the seal of any matter mailed as first-class mail without a legal warrant, even though it may contain criminal or otherwise unmailable matter, or furnish evidence of the commission of a crime. The only exception to this occurs when a letter cannot be delivered to the addressee or returned to the sender, in which case it goes to a dead-letter office where it is opened by a designated employee in an attempt to ascertain the correct name and address of the sender or addressee.

2. Should a daily newspaper be received by the addressee as promptly as a first-class letter?

YES. A daily newspaper is given the same fast transportation, distribution, and delivery as first-class mail, even though a newspaper is second-class. Other sec-

ond-class mail, such as magazines and periodicals, is normally printed in advance of the issue date and mailed early enough to allow delivery on the desired date even though it does not travel as fast as newspapers or first-class mail.

3. Which cost less per ounce to mail: A newspaper or a first-class letter?

NEWSPAPER. Second-class rates are less than first-class rates for many reasons. The Government wants to encourage people to be well-informed. In addition, publishers prepare their newspapers and magazines for transportation by placing them in separate sacks for each post office or state, depending on how many copies are addressed to each place. In many cases newspapers and magazines are never actually handled by the post office at which they are mailed, as the publisher trucks them direct to the railroad station.

For answers to other questions about the postal service call Postmaster Meritt Williams at FA 5-1608.

State to Receive \$100,000 From El Centro Man's Estate

SACRAMENTO — The State of California will receive approximately \$100,000 from the estate of an elderly El Centro bricklayer whose past is cloaked in mystery, State Controller Alan Cranston disclosed today.

That gargantuan sum — one of the largest amounts ever to pass to the State under the escheat laws — represents half of an estate left by Elmer Leonard, 87-year-old Imperial Valley pioneer who died last July.

LEONARD AMASSED his fortune in the time-honored tradition of hard work, thrift and prudent investments, according to Cranston, whose office processes unclaimed property and escheated estates.

Leonard's wife, Dora, whom he married in Omaha, Nebraska, on Nov. 21, 1906, died in 1954.

Other than the wedding date, and the fact that he was born in Renville County, Minn., on April 4, 1871, little is known of Leonard's early years.

THERE IS EVIDENCE, Cranston said, that he was known as "Frenchy" in Omaha and that he wandered through the Middle West as an itinerant bricklayer in the latter days of the last century.

His meandering trail passed through Nebraska, Iowa, North Dakota, Wyoming, Utah, Minnesota and Wisconsin. But it comes to a dead end long before he came to California, Cranston said.

The Leonards came west half a century ago and settled in the Imperial Valley, commencing their frugal existence with a modest homestead. Their savings were invested in bonds, stocks and land, some of it farmland, some of it urban property in El Centro.

AS IMPERIAL VALLEY grew,

so did the value of the Leonards' holdings.

Through the years, the Leonards had no children. And they left no will, an oversight which has caused the present muddle.

Their entire fortune of some \$200,000 was community property, according to the El Centro law firm of Roberts, Campbell and Ewing.

Mrs. Leonard's half, however, was claimed by five half brothers and sisters who will share her portion in equal parts.

HER HUSBAND'S half has been unclaimed despite the industrious efforts of lawyers and professional heir-hunters to locate a rightful claimant. One heir — hunting agency, American Research Bureau of Los Angeles, sent a man on three trips to the Middle West in a fruitless effort to unravel the Leonards' shrouded past.

Under state law, an estate for which there is no will and no known heirs is held by the State for five years. If no heirs come forth within that time, the estate escheats to the State, the proceeds going into the School Land Fund. It is then beyond reach.

The largest estate ever escheated to the State was the \$104,197 fortune left by a Portuguese immigrant, Isaac Benichimol, an Arroyo Grande merchant and banker who died in 1942. Two nephews and a niece, all of whom reside on the Atlantic Coast, eventually claimed the estate.

Trusting Soul

HAMBURG, N. Y. (UPI) — Mayor William A. Shoemaker, who was defeated by one vote after eight years in office, said he would not demand a recount because "the voting was by machine and the results are accurate."

JELLIED FRESH FRUIT FOR SHORTCAKE

MADE WITH M. C. P. "LOW SUGAR" PECTIN

Jellied Fresh Fruits Will Not Soak Into Shortcake

SAVE THIS!...One Recipe for All Fruits Without Cooking

PREPARATION OF FRUIT: Wash thoroughly. Hull and crush berries. Grind tree fruits.

1. Measure 2 cups crushed or ground fruit and 1 cup M.C.P. "Low Sugar" Liquid Pectin into kettle. Mix well.

2. Add 2 cups sugar; blend mixture thoroughly to dissolve sugar.

3. Some tart fruits, such as Red Raspberries and Loganberries, may be tart enough to jell the fruit, but other fruits will need lemon juice. The amount of lemon juice to add ranges from ¼ cup to ½ cup, depending upon the kind of fruit being used.

4. First, try adding ¼ cup lemon juice, mix well. If texture and tartness suit you, do not add more lemon juice. If jellied fruit is not firm enough, then add ¼ cup more lemon juice; but no fruit will need more than ½ cup lemon juice for this basic recipe.

5. The fruit will jell immediately when the proper amount of lemon juice is added and it is then ready for use on shortcake, or if you want to keep it for future use, it will keep for weeks stored in refrigerator same as milk.

"Jellied Fresh Fruits" can be frozen in regular freezing containers for long storage. When thawed out, jellied fruit will retain its perfect texture and fresh fruit flavor.

The above recipe will make 2½ lbs. of "Jellied Fresh Fruit." This recipe may be doubled, tripled, etc., by multiplying all the ingredients by the same number.

Get M. C. P. "Low Sugar" Pectin at your grocers now.

PACKING SUITCASE at Short Hills, N.J., home of Mr. and Mrs. Raymond Davis and their three children. They are en route to Moscow to appear at U.S. exhibit as "typical suburban family" beginning July 25.

DESERT HOT SPRINGS

By ELLEN SAUNDERS

Mr. and Mrs. William M. O'Hara, owners of O'Hara's cafe, and their daughter Mrs. Phyllis Herbold, motored to Los Angeles on Wednesday to attend the Judy Garland show at the Shrine Auditorium as the guests of the M. C. Madens. The Madens, who are the manager of the Shrine Auditorium, make frequent trips to the desert to view the progress being made on the weekend home they are building here.

Mrs. Robert Wertz and daughters, Penny and Susie, are enjoying a ten-day stay at the Hotel Riviera in Laguna.

The most comfortable spot in town is the Drug Store Barber Shop, according to Jack Yon, proprietor, who has just installed a new cooler.

Mrs. Margaret McFadden left on Thursday for a weekend visit with L. and Mrs. G. P. Myers of Chula Vista.

The Walter Kloches, who are vacationing at Huesong's Trailer Park in Escondido, Mex., were in town for a couple of days. They report that the cool weather and fine fishing will keep them in Escondido until September.

George Gross and Bruce Crawford recently began a six-week motor trip which will include attendance at the layman's portion of the American Baptist's Convention which opened in Green Lake, Wis., on July 18. After a week's stay in Green Lake, the two men will tour New York City and Washington, D. C. They plan to return via a southern route.

Mr. and Mrs. Charles F. Walton left Saturday on a three-week vacation and visit to relatives in Kansas City and Chicago.

Mrs. Charles Meadows is home from a two-week trip to the Bay Area where she shopped and renewed old friendships. Much of her time was spent in the Berkeley homes of her two daughters and sons-in-law, the William C. Barra and the John C. Scudders. A highlight of the trip was a day's outing to Lake Berryessa in Napa County where Mrs. Meadows' three granddaughters—Claudia, Sydney and Vicki Barr—surprised their grandmother with their prowess in water skiing.

Among the guests at the El Encanto Health-Torium is Arthur Murray, Los Angeles attorney, and son of A. Murray, a member of the Los Angeles law firm of McSweeney, Mumpster and Hughes. Murray, an arthritic, is being helped by the sunshine and hot mineral baths.

Mrs. Thomas Lipps accompanied by her son and daughter-in-law, the George Govindas, sailed on July 16 aboard the SS Lurline for a Hawaiian vacation. They expect to return about Sept. 1.

Mrs. Eudora Whisenand has just returned from a one-week vacation in Denver, Colo. Although the plane trip was occasioned by the

need to help her mother, Mrs. C. H. Eppich, move from her home to an apartment, Mrs. Whisenand sandwiched in several reunions with friends and some sightseeing. An unexpected pleasure was the arrival in Denver of Mrs. Whisenand's niece, Miss Marilyn Kavan, a school teacher from Port Angeles, Wash., who will be married to a commercial pilot next month.

Rose and Nat Betram have ended their three-month tour of Europe and are visiting their children in Los Angeles. They are expected back on the desert next week.

Mrs. John Young has just returned from a three-month stay in Raleigh, N. C., and is very happy to be on the desert again. Unfortunately, unfinished business affairs will require Mrs. Young to return East within the next few weeks. Her friends will be glad to know that she has completely recovered from the accident which had caused her to wear a cast on her leg for several weeks.

Among those celebrating California Press Women's Club day at Hollywood Park on Friday were the Aaron L. Eatons (Mrs. Eaton is a member of the California Press Women). Before their return home on Saturday, they also visited the Los Angeles Home Show searching for decorating ideas which they might use in their soon-to-be-completed home.

Mr. and Mrs. Lyle McMillan returned on Friday from a fishing trip to Huntington Lake in the High Sierras.

Miss Maureen McCabe flew in from Phoenix, Ariz., on Sunday to spend two weeks with her aunt and uncle, the Ferd Pedersons.

Mrs. Harry Katzenberg—she's manager of the Bubbling Wells Motel—motored to San Diego on Friday and returned with her aunt, Mrs. Emma Jane Hillier, who will be her house guest for the next two months.

Cuban President Asks American 'Understanding'

HAVANA (UPI)—Oswaldo Dorticos Torrado, 45, who soared from obscurity to the presidency of Cuba in a few short hours last weekend, appealed today for American "understanding" of the Cuban revolution.

The president said there was no basis for American fears of a Communist takeover here. "Americans must understand the Cuban revolution and our objectives," Dorticos said. "This is a Cuban revolution. It is nationalistic."

He said that if the people of the United States understood this they would have no fears about Communism in Cuba.

Nickel plating was first used commercially about 1870 in England.

Dear Abby... by Abigail VanBuren

DEAR ABBY: I have read of nothing but trouble, fighting and misery between man and wife in your column which only confirms the wisdom of my decision thirty-six years ago, to remain a bachelor. I go where I please without asking the permission of a possessive woman, I am not subjected to "nagging" or bossing, I eat when I feel like it, and sleep when I am tired. I have no ungrateful children to support. I can get the companionship of a woman whenever I feel like it. It's cheaper in the long haul and I am happier. Who said that man couldn't live without a wife? SATISFIED

ABIGAIL VAN BUREN

DEAR ABBY: Our daughter is married to a man who is 23 years older than she is. She is expecting a baby in a month. Her husband tells her she has to give the baby away because it isn't his. Abby, she is a good girl and always has been. The only place she has ever been without him was to church. He won't go. I am her mother and am two years younger than her husband. I want to keep the baby. My husband says if I take the baby he will leave me.

Should I break up my own marriage of 34 years to give my daughter's baby a home, or should I let her adopt it out. She wants to keep it but her husband won't let her.

DEAR SAD: Don't take the baby. It belongs with its mother. If your daughter knows that her husband is the baby's father, she should keep it. Her husband should see a doctor about his mental condition. He is behaving like a very sick man.

DEAR ABBY: My father married a lady who was supposed to be a "mother" to me after my own mother died. She asked me to call her by her first name because she said she was too young to be my real mother (I am 13 and she is 33). So I started calling her by her first name. Then she changed her mind and said it didn't sound respectful enough so I should call her "Mother." I can't call her "Mother" without getting a lump in my throat that won't swallow. What should I call her please?

DEAR UNDECIDED: Make up a "pet" name such as "Mums" or something you have never called your real mother. If you feel that you are forcing yourself, just forget about a name until one comes naturally.

DEAR ABBY: I married a fine

man who bears a fine old German family name. Whenever it is mentioned people snicker and with good reason, because in English it suggests something not mentioned in polite company. If we shortened it, it would be worse. We have three little boys growing up and already they have become the object of ridicule. My husband would go to court and change it, only we are afraid of what our friends might say. Should I encourage my husband to change it or not?

DEAR MRS. S.: Yours is a perfectly legitimate reason for wanting to change your name. You need not be ashamed to do so.

DEAR ABBY: I am the mother of a teen-aged daughter who is going steady with a young man in his twenties. He is from a broken home and doesn't have a very good reputation. He doesn't take her out very often. They spend their time at our home, which is better than elsewhere.

He doesn't show much respect for us. Do I have a right to ask him to leave at a certain time? He has stayed as late as 3:30 a.m.

DEAR MRS. S.: You not only have a RIGHT to tell him when to leave — you have an OBLIGATION. A teen-aged girl who is permitted to keep steady company with a young man of questionable reputation (and he doesn't show much respect to the girl's parents) needs more guidance than you are giving her.

To get ABBY's booklet, "What Every Teenager Wants To Know," send 25 cents and a large, self-addressed, stamped envelope to ABBY in care of this newspaper.

For a personal reply, write to ABBY in care of this paper. Enclose a self-addressed, stamped envelope.

Palm Desert

By GRETCHEN CHEESEMAN

Mr. and Mrs. Robert Hanson (May and Bob) are enjoying their farm, Mt. Republic, near Newburg, Md. They have plenty of room there for family and visitors, and are urging their friends to come this summer as the farm is up for sale.

Mr. and Mrs. Charles Pelgram are loathe to leave their Joshua Tree Street home and swimming pool for very long, so short trips are the summer program for these two.

Mrs. Helen Furer and her mother, Mrs. Foster Splain, have left their Silver Spur Ranch home for the summer but will make a few trips back and forth. They are having fun at Mrs. Furer's brothers home at Malibu Beach and also will get over to Catalina for a few weeks.

Mr. and Mrs. Carl Coleman left here several weeks ago. They have a big home in Portland, Ore., and expect many visitors this summer with the Centennial Celebration going on.

Mrs. Helen Furer and her mother, Mrs. Foster Splain, have left their Silver Spur Ranch home for the summer but will make a few trips back and forth. They are having fun at Mrs. Furer's brothers home at Malibu Beach and also will get over to Catalina for a few weeks.

Mr. and Mrs. L. G. Baird left last week for a summer vacation in Colorado. Mrs. Baird will visit friends in Denver while "L.G." goes to Kansas City on a business trip. They will visit with the Everetts Voniers in Colorado Springs. In fact, this will be a Colorado "sight-seeing" trip for the Bairds. They will spend a week or so

Second Quarter Traffic Deaths Show Increase

Traffic fatalities in the Southland during the first half of 1959 increased three per cent over the same period last year, the Automobile Club of Southern California reported today.

Highway deaths in the 13 southern counties totaled 944, an increase of 30 from the 1958 first half toll of 954. Fatality decreases were recorded in five counties: Imperial, Inyo, Los Angeles, San Bernardino and Tulare.

Pedestrians comprised approximately 26 per cent of the fatalities throughout the Southland, with 254 deaths in that category. This represents a five per cent increase over the first six months of 1958 when 242 pedestrians were killed.

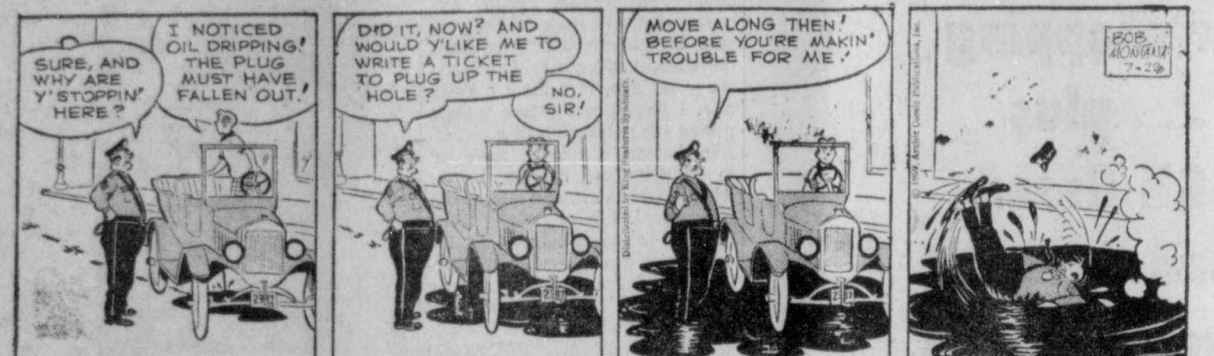

Riverside County suffered 100 traffic deaths during the first half of this year, a nine per cent increase over last year's first half figures. Pedestrian fatalities in the county increased by one, from 13 during the first six months of 1958.

TOP SHOW TONIGHT—Eddie Machen takes on Reuben Vargas in a 10-round heavyweight bout at 7:00 p.m. over ABC-TV. Bat Masterson at 9:30 p.m. (Gene Barry) saves an old gypsy's life and as a reward accepts supervision of a girl who is not a gypsy but who was found by the wanderers near a destroyed wagon train several years before. The girl wants to remain with the gypsies but Bat feels she should be with her own people and he sure has his hands full convincing the girl.

THERE OUGHTA BE A LAW Fagaly and Shorten

ARCHIPELAGO IS AGIN'
HUSBANDS PLAYING IN THE SAME FOURSONE, OR EVEN ON THE SAME COURSE WITH THEIR WIVES

BUT I JUST THOUGHT
I'D PLAY WITH YOU TODAY, AFTER ALL, IT'S A PUBLIC COURSE!

WELL, THINK AGAIN!
WOMEN SHOULD PLAY WITH WOMEN! STAY HOME! YOU'LL ONLY SPOIL MY GAME!

MIND IF I SEND THESE LADIES OUT
WITH YOU? THE COURSE IS A LITTLE CROWDED TODAY!

IT'S NOT AT ALL, MY PLEASURE!
BE MY GUEST, DEAR LADIES! GLAD TO HAVE YOU!

THANKS TO
ETHEL BULL

Indians Keep Lead But L.A. Gains Game

Dodgers Nip Giants Again; Yanks Lose

Craig 3-Hit Chore Halts 'Friso, Puts L.A. Half Game Out

United Press International
Cleveland retained its percentage point lead in the American League with a 5-1 victory over the Yankees yesterday, but the San Francisco Giants saw their league lead slashed to just a half game as the Dodgers blanked the Bay boys, 1-0.

Cal McLish provided the pitching and John Francona the batwork as the Indians nailed up the New Yorkers and kept their lead over second-place Chicago.

IN A BATTLE of three-hitters Los Angeles' Roger Craig outlasted the Giants' "Sad Sam" Jones.

Craig had aid from Charley Neal — who won for Don Drysdale with a homer on Monday — as Neal singled, moved around and scored on Gil Hodges' double. The winning score in the 1-0 ball game didn't come until the first of the ninth.

THE WHITE SOX edged the Red Sox, 2-1, the Tigers defeated the Senators, 8-1, and the Athletics downed the Orioles, 8-1, in other American League games.

In the National League, the Reds handed the Braves their seventh straight loss, 12-2, and the Cubs topped the Cardinals, 8-2, and the Phillies defeated the Pirates, 4-2, after Pittsburgh scored a 7-6 decision in the completion of a game suspended on May 10.

McDevitt, Sherry Ready for Cubs

LOS ANGELES — (UPI) — The Dodgers return home tonight to open a 15-game stand in the Coliseum after a successful road trip in which they won 10 out of 18 games and moved to within a half game of first place.

Danny McDevitt (8-7) or Larry Sherry (0-2) will do the pitching honors for the Dodgers against Chicago's Bob Anderson (5-7), said Manager Walt Alston.

TODAY'S SPORTS PARADE

'Rocky' Eyes Comeback Trail

By OSCAR FRALEY
NEW YORK — (UPI) — There is a steadily increasing belief among the fight mob today that Rocky Marciano will make a comeback.

Marciano has denied repeatedly that he will. Yet the three-fold attraction of better than one million dollars, renewed acclamation and the stubborn belief of a champion that he "can take these bums around today" is a merciless goad.

THESE ARE prospects which have proved an irresistible lure to almost every former heavyweight champion.

It's always there in the back of their minds. They forget, in most instances, that the flipping pages of the calendar have padded them with the suet of indolence and robbed them of their skills. They see themselves as they were in the days of their glory and the results all too often are pathetic and pitiful.

YET MOST OF them, all the way back to the mighty John L. Sullivan, have given the comeback a try. The great John L. had two bouts after a four-year layoff and quickly decided that he no longer could "lick any man in the house."

Gentleman Jim Corbett was next and, returning after three years, was bombed out by Jim Jeffries. Bob Fitzsimmons laid off five years and knew he "had it" after one no decision return. Jeffries after six years away

COUNCIL APPROVES SPORTS CAR ROAD RACES IN JANUARY

City Manager Dan Wagner reported to the City Council Monday that the Sports Car Club of America has asked for Jan. 23-24, 1966, as dates for their next championship Road Races in Palm Springs.

The Council has unofficially approved the racing dates and the use of the Palm Springs Airport for the race.

SPORTS in the SUN

14 The Desert Sun Wednesday, July 22, 1959

NEILSEN 2-HITTER DEFEATS CHI-SUN

Exemplary pitching by Paul Nielsen — combined with a 7-hit attack and error-marred play by their opponents — gave Coachella Valley Savings and Loan Association a rousing, 17-1, victory over the Desert Sun — Chi Chi in a Desert Softball League game last night.

Palm Springs Builders Supply and the California Water and Telephone Company teams meet tonight at the Polo Grounds in a game that ends the second round of DSL play.

NEILSEN ALLOWED the Chi-Sun just two hits, but the losers paired Sid Erzoff's double with Don McKinney's single to score their only run. Erzoff's hit ended three and a third innings of hitless pitching by Nielsen.

For the winners, it was a veritable "hit parade" as they scored nine times in the first frame. Big hit of the inning was a bases loaded triple by Nielsen, who also chipped in with a double in the fourth inning for a two-for-two night.

Mounties, Solons Clash in Crucial For PCL Lead

United Press International
The Vancouver Mounties invade Sacramento tonight to open a critical battle for first place in the Pacific Coast League.

The Solons, who have been on top nearly all season on the strength of a fast getaway, are now deadlocked in the lead with the Mounties.

Veteran Joe Stanka (11-6) will take the mound against 21-year-old Charles Estrade (7-2).

All the PCL clubs have had a two-day break for the annual All-Star Game but a full slate of action is set for tonight. Portland is at Phoenix, Seattle at Salt Lake City and Spokane plays in San Diego.

Pascual to Start All-Star Repeat

DETROIT (UPI) — Casey Stengel always wanted Washington's Camilo Pascual for the Yankees and he may finally get him next week — to pitch for the American League in the second All-Star game at Los Angeles, Aug. 3.

The talk around the league is that Stengel already has made up his mind to pick Pascual, currently the hottest pitcher in the circuit.

the title, which is a delayed arrival in a bruising business dedicated to the young. He will be 36 in September.

Marciano was 189 pounds in his last bout. He can claim otherwise but those who have seen him recently must estimate that he has ballooned to somewhere in the over-stuffed neighborhood of 225-pounds—and up.

IF MARCIANO is trembling on the brink of a comeback, he should remember the comeback of Joe Louis, which he himself destroyed in Madison Square Garden on an October night in 1951. And as the once mighty Brown Bomber lay at his feet, the myth of his indestructibility shattered, Rocky confessed:

"I felt terrible at doing that to him."

And there is Ezzard Charles, twice the victim of Marciano's blows, who retired in 1956—and is a caricature of his old dancing self as he makes an anonymous comeback this year.

ARCHIE MOORE

Moore-Durelle Bout Postponed To August 12

MONTREAL — (UPI) — The Archie Moore-Yvon Durelle light-heavyweight title fight has been postponed for two weeks, promoter Eddie Quinn said today.

The fight was rescheduled for Aug. 12. This was the second time the fight was postponed.

Quinn said he spoke to Moore today in San Diego, following the fighter's sudden departure from here Monday to be with her seriously ill wife.

Quinn said Moore asked for the postponement because he was distraught over the condition of his wife, Joan.

ARAGON PROTESTS WIFE'S KNOCKDOWN, SAYS HE 'SLIPPED'

LOS ANGELES — (UPI) — Veteran boxer Art Aragon indignantly protested in court Tuesday testimony that his former wife knocked him down during a domestic scuffle.

"I slipped, your honor," said the 31-year-old "Golden Boy."

Municipal Judge William H. Rosenthal dismissed an assault with a deadly weapon charge brought by Aragon's former wife, Georgina, 30, when she said she didn't want to press the charge.

FIGHT RESULTS

NEW BEDFORD, Mass. — Joe De Nucci, 161, Newton, Mass., knocked out Archie Whitfield 155, New York 3).

Olmedo in Action In USLTA Matches

HAVERFORD, Pa. (UPI) — Four U.S. Davis Cup players, including Wimbledon titleholder Alex Olmedo, were scheduled to compete today in the third round of the 60th Pennsylvania Lawn Tennis Championship.

Olmedo, accused of lakadalsical play in the National Clay Court quarter finals last week, came back with a serious attack Tuesday to advance through the first two rounds of the Pennsylvania tourney.

HE SCORED A 6-1, 6-1 victory over Mac White, Austin, Tex., in

the opening round and then downed Alan Roberson, Brooklyn, N. Y., 6-2, 6-2, in the second round.

Olmedo has been threatened with suspension because of his play against South Africa's Abe Segal in the Clay Court tournament last week but Perry Jones, of Los Angeles, captain of the Davis Cup team, said he was against such action.

JONES, SPEAKING at the annual banquet at the Merion Cricket Club Tuesday night, said he opposed any suspension of Olmedo from further tourney play.

VARGAS PREDICTS HE'LL KO MACHEN IN TV FISTICUFFS

PORTLAND, Ore. (UPI) — Ruben Vargas, an unranked campaigner with an in-and-out record predicted today he would knock out heavyweight challenger Eddie Machen in their scheduled 10-round bout at the Oregon Centennial Grounds Thursday night.

"I think I'll stop him with a right hand," says Vargas, who lost a decision to Machen in San Francisco in the last outing for both men.

The battle will be televised nationally with a 200-mile blackout in the Portland area. The fight starts at 10 p.m. e.d.t.
